ADDITIONAL POSITIONING PADDING (APP)

The Additional Positioning Padding (APP) package is a modular seating system made with high specification foam and covered with 4-way stretch, breathable waterproof fabric. The APP is a no-maintenance, easy-to-use system that attaches quickly and securely to Broda wheelchairs.

The APP package helps optimize individual immersion, alignment, and pressure redistribution by working in harmony with our Comfort Tension Seating[®]. The APP features:

- Contoured Seat & Back Cushion
- Enhanced Head, Shoulder, Calf and Foot Cushions

RECOMMENDED FOR:

Enhanced comfort with Broda's positioning and pedal wheelchairs

SLIM POSTURE PADDING (SPP)

The Slim Posture Padding (SPP) package is a low profile modular seating system made with high specification foam and covered with 4-way stretch, breathable waterproof fabric. The SPP is a no-maintenance, easy-to-use system that attaches quickly and securely to the Broda wheelchairs.

The SPP package helps optimize individual immersion, alignment, and pressure redistribution by working in harmony with our Comfort Tension Seating[®]. The SPP features:

- Contoured Seat and Back Cushion
- Optional Extended Back Cushion

Shown with Encore Pedal Wheelchair

RECOMMENDED FOR:

Low-profile comfort with Broda's positioning and pedal wheelchairs

HUNTINGTON'S SPECIAL PADDING (HSP)

Designed for use with Broda's positioning chairs, the Huntington's Special Padding (HSP) package provides enhanced safety and support while helping to prevent patient injury.

The HSP supports individuals with Huntington's, Parkinson's, ALS (Lou Gehrig's Disease), Multiple Sclerosis (MS), Alzheimer's and Dementia, and other neurological or movement disorders. The HSP features:

- Long Upper Side Laterals
- Thigh Positioning Belt
- Long Footbox

RECOMMENDED FOR:

Users with neurological or movement disorders on Broda's positioning and pedal wheelchairs

ACUTE CARE CONFIGURATION (ACC)

The Acute Care Configuration (ACC) package is available on all Broda positioning wheelchairs, including the top-of-the-line Synthesis and the Vanguard for bariatric users.

The ACC package provides enhanced infection control with fully wrapped seat, back and lower leg support covers. ACC Package features:

- Full Vinyl Wraps
- Encases access to Comfort Tension Seating[®] for easy cleaning
- ABS Lower Leg and Foot Support with Calf and Sole Cushions*
* Not removable; configured with the base frame via an extra cable assembly

Shown with Synthesis Positioning Wheelchair

RECOMMENDED FOR:

Care environments where infection control is a high priority
